Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point, and the video screen shows the hand's position relative to the target. The subject is instructed to move the hand to the target. The video screen is controlled by a computer, which records the hand's position and the time taken to reach the target.
